Academic Videos

DATABASES

Biological Science

This interdisciplinary database offers summaries and citations to a wide range of research in biomedicine, biotechnology, zoology and ecology and some aspects of agriculture and veterinary science. Based on more than two dozen areas of expertise, this database provides access to the literature of more than 6000 serials, as well as conference proceedings, technical reports, monographs, and selected books and patents.

CAS SciFinder-n

This database has the latest scientific information solution from CAS, a division of the American Chemical Society. In addition to the reference, substance, reaction, and supplier content found in CAS SciFinder®, CAS SciFindern offers results sorted by relevance, step-by-step procedures and protocols, biosequence search, retrosynthesis, patent landscape mapping, touchscreen structure drawing, and more, all accessible from a simple, easy-to-use interface.

MEDLINE Complete

Collection created by the National Library of Medicine, provides medical information in health sciences, dentistry, veterinary and much more.

Veterinary Source

Veterinary Source is a full-text collection of journals and academic publications dedicated to all aspects of animal care. It is an international resource, essential for veterinarians, veterinary technicians, assistants and students. It provides access to research on the prevention, control, diagnosis and treatment of diseases and injuries in animals, and also covers topics related to animal nutrition, reproduction and breeding.

Consult a librarian for more information.
